## **DETAILED ACTION**

### ***Claim Objections***

1. Claim 2 is objected to because of the following informalities: at line 3, "strips" should be --bands--. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-6 and 7-20 are rejected under 35 U.S.C. 102(b) as being anticipated by French reference #2,824,570 to Yvon. Yvon discloses a stabilized earth structure including main stabilizing bands 4 and second stabilizing members 3 which are connected to the facing and extend shorter than the main stabilizing strips.

### ***Response to Arguments***

4. Applicant's arguments with respect to claims 1-5 and 7-20 have been considered but are moot in view of the new ground(s) of rejection.
